踔厉奋发图至远
围流不息继书香

2023年是全面贯彻党的二十大精神开局之年，也是实施“十四五”规划承上启下的关键之年。图书馆秉持“一切为了读者，为了读者一切”的服务理念，不断优化纸电资源结构，布局人才战略支撑、探索数据服务转型，为广大师生提供优质的教学资源保障、前沿的学科情报支持、便捷的学习空间服务及丰富的学术文化活动，支撑“学在交大”，助力学校“人才强校”主战略的实施。

2023年，学习贯彻习近平新时代中国特色社会主义思想主题教育在全党如火如荼开展。图书馆统筹推进“理论武装大学习”“责任使命大调研”“争创一流大实践”“检视整改大提升”“教育成果大转化”，不断学习成果转化为干事创业的动力。成功召开图书馆党员大会，擘画未来发展蓝图，引领图书馆事业高质量发展。

2023年，是图书馆围绕学校“人才强校”战略，全面提升数据服务效能的重要一年。我们以人才库建设为抓手，聚焦全球高被引科学家、全球青年人才奖项获得者、世界一流大学博士及博士后，开展全球顶尖人才库一期建设。同步开展人才评估、高被引潜力学者预测、院系顶刊发文人才挖掘等工作，为学校管理决策和前沿布局提供智力支持。

2023年，是图书馆强化“以人为本”人才培养支持，全面贯穿本科教育全过程的开拓之年。创建“馆员进班级”机制，为新生配备专属指导馆员，实现本科新生全覆盖。信息专员培育首次拓展到本科生群体，面向新晋研究生开展领航训练营活动，实现信息素养培训贯穿大学本科教育全生涯。推出借阅“三无限”（外借册数无限、续借次数无限、预约册数无限），为人才培养提供全方位支持。

2023年，线下活动生机勃勃。依托“李政道科学与艺术讲座基金”“CUSPEA之家”“‘大思政课’实践教育基地”“上海市科普教育基地”等品牌，开展多主题文化服务近90场。连续第十年举办科艺作品大奖赛，“求学问——走近李政道藏书房”展走进上海图书馆东馆，广受欢迎。主办的第十六届图书馆管理与服务创新论坛的规模创历史新高，引领行业发展。

2024年，图书馆将以建设未来学习中心为抓手，抓住数字化转型的机遇，积极参与学校未来教育体系重构，向“大图书馆”服务模式创新转型，切实提升数字化服务能力和水平，激发学生自主学习和探索兴趣，打造教育发展新生态，为培养具备终身学习能力、创新能力和社会责任感的人才做出新的更大的贡献。

2024年春

MESSAGE FROM THE LIBRARY DIRECTOR

*Pursuing long-term development through vigorous endeavor,
the ever-evolving library carries on an environment favorable for reading.*

2023 marked the inaugural year for the full implementation of the spirit of the 20th National Congress of the Communist Party of China (CPC). It was also a key year for the implementation of the 14th Five-Year Plan. Adhering to the service concept of "Doing Everything for Readers", the library is dedicated to continuously optimizing the structure of print and electronic resources, increasing strategic support for talent search, improving data services, and providing high-quality teaching resources. For teachers and students, we also ensure cutting-edge subject information support, convenient learning space services and rich academic and cultural activities to serve the mission of "learning in Shanghai Jiao Tong University" and "strengthening the university with talents".

In 2023, studying and implementing Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era was in full swing throughout the Party. In the Party interest of continuously converting academic achievement into motivation for entrepreneurship, the library has been organizing educational events on "Theoretical Learning" "Responsibility and Mission Investigation" "Striving for First-class Practice" "Inspection and Improvement" and "Transformation of Educational Achievements". The Party Congress convened successfully, drawing a blueprint for future development and leading the high-quality development of the library industry.

2023 was an important year for the library to comprehensively improve the efficiency of data services to enact the university's strategy of "strengthening the university with talents". We took constructing a talent database as the starting point, collecting highly cited researchers worldwide, winners of Global Young Talent Award, doctors and postdocs fellows from top universities. At the same time, we carried out talent evaluation, prediction of potential highly cited researchers, and talents mining from authors on top publications, so as to provide intelligence support for university management planning and decision-making.

2023 was a pioneering year for the library to increase personnel training to "take undergraduate education as the foundation." Meeting this university objective required supporting students for the full duration of their undergraduate education and creating a "librarians enter the class" mechanism, assigning dedicated guidance librarians to every new undergraduate student. For the first time, the training of information liaison was extended to the undergraduate population. Training camp for newly recruited graduate as well as undergraduate student was held to ensue information literacy for all students. To further serve the goal of developing talent, the library also launched the "Three Unlimited" borrowing rules for the first time (unlimited number of borrowed books, unlimited number of renewals, and unlimited number of reserved books).

In 2023, off-line activities were vibrant. Relying on brands such as "Tsung-Dao Lee Science and Art Lecture Fund" "CUSPEA Home" "Practical Education Base for Ideological and Political Courses" and "Shanghai Science Education Base", nearly 90 multi-themed cultural services were offered. For the tenth consecutive year, the Grand Prix of Science and Art Works was held, and the exhibition entitled "Seeking Knowledge—A Close Look at Tsung-Dao Lee's Study" gained wide popularity while being shown in Shanghai Library East. The 16th Creative Forum for Library Management and Service reached a record high in scale, leading the development of library industry.

The library will kick off 2024 with the construction of the future learning center, while seizing the opportunity of digital transformation and participating in the university's education system reform. As we transition to the U-Library service model, we will be better positioned to raise the level of digital services and stimulate student interest in independent learning and exploration. Creating a new ecology of education development is necessary for cultivating talents with lifelong learning ability, innovation ability and social responsibility.

虚实空间，智慧融合 Integrating Virtual and Real Space to Achieve Hybrid Intelligence

资源服务平台管理

开发监控系统，对100余个重要应用和API接口实现实时自动监控。

智能楼宇空间优化

引入环境监测系统，优化馆舍空间温湿度、PM2.5监测，提升读者体感舒适度。

监控点位升级扩容至662个，保障两个校区五个馆舍公共区域和阅览室区域的监控全覆盖。

闸机升级改造

打通闸机与上海市大数据中心数据通道，实现自助登记入馆。支持后台进行在馆人数统计与实时调整。

根据出馆情况，动态释放入馆名额。

改造出入馆闸机通道，实现闸机双向通行功能，提升通行效能。

交圈系统空间整合

“交我办”上线“交圈预约座位”“交圈空间预约”，包含阅览座位2,361席、小组学习室/面试空间36间，交我办空间预约率高达94%。

资产清查管理

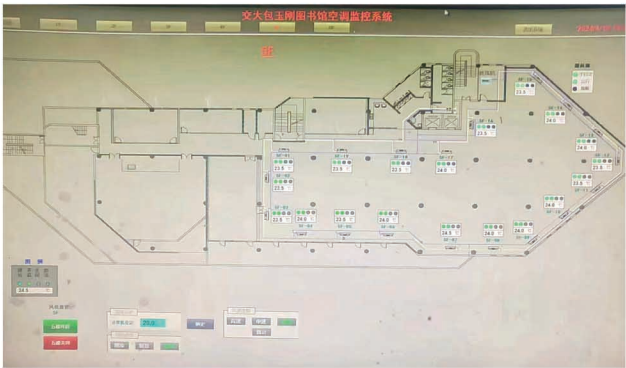

盘点核查各类设备资产2,742件，家具资产12,823件，摸清“家底”。

馆舍空间改善

完善各馆舍空间50余项，保障设施设备的正常运行和安全使用，提升馆舍的整体管理水平和服务质量。

优化空间标识

优化各馆舍空间标识500余个，提升馆舍的整体形象和使用体验。

Resource service platform management

Developed a monitoring system to implement real-time automatic monitoring for over 100 important applications and API interfaces.

Intelligent building space optimization

An environmental monitoring system was introduced to optimize the temperature, humidity, and PM2.5 levels in library spaces, enhancing the comfort and experience of readers.

The number of monitoring points went up to 662, ensuring full monitoring coverage of all public areas and reading rooms in the five buildings on the two campuses.

Library gate upgrade

Connected the entrance gate with the data channel of the Shanghai Big Data Center enables readers to self-register upon entering the library, facilitating real-time monitoring of the numble of visitors and real-time adjustments.

Dynamically releasing admission slots based on the outflow situation.

Revamping the entrance and exit gate channels to enable bi-directional passage enhances the efficeine of entry and exit.

Spatial integration of the SJTU library system

The Jiaowoban APP launched several online functions including “SJTU library space reservation” and “SJTU library seat reservation”, making available 2,361 reserved seats and 36 discussion rooms. The reservation rate reached as high as 94%.

Library space improvement

More than 50 space maintenance requests in different buildings were processed to ensure smooth operation, safe use of facilities and equipment, and a higher management level and service quality.

Optimized spatial identification

More than 500 space signs throughout the library building were redesigned to enhance space user experience.

Asset inventory management

We took inventory of 2,742 equipment assets of all kinds and 12,823 furniture assets.

科艺簪政，再启新程

SJTU T.D. Lee Science and Art Lecture Fund and Hui-Chun Chin and Tsung-Dao Lee Chinese Undergraduate Research Endowment (CURE)

科艺簪政携手同台，开创协同育人新纪元

首个李政道科学与艺术教育基地授牌。

首次引入AIGC技术辅助科艺工作坊创作。

首次与上海市科委合作，科艺作品走进地铁站，覆盖客流2,025万人次。

首次集中展出历年科艺主题画原件，创作者首次集中亮相，共话科普美育新发展。

技术赋能，簪政基金管理服务平台实现数据自动对接和共享。

承上启下，《簪政基金25周年分析报告》立足学者分析，深入总结成效，擘画未来发展路径。

The combination of SJTU T.D. Lee Science and Art Lecture Fund and Hui-Chun Chin and Tsung-Dao Lee Chinese Undergraduate Research Endowment (CURE) inaugurates a new era of cooperative education

The first SJTU T.D. Lee Science and Art Education Base was officially established.

Introduced AIGC technology for assisting in the creation of Science and Art Workshop for the first time.

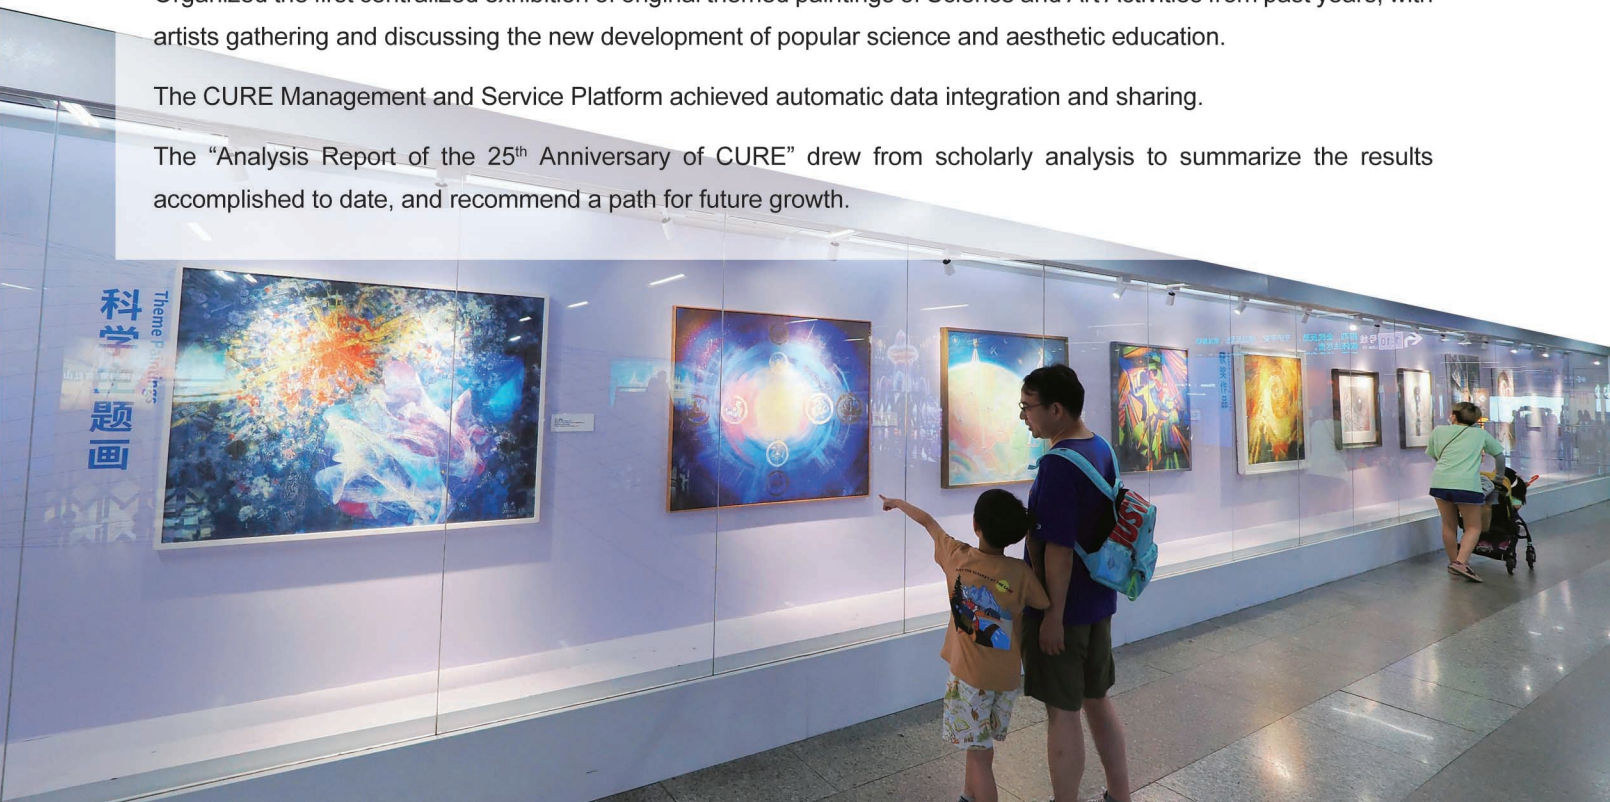

Collaborated with Science and Technology Commission of Shanghai Municipality for the first time, putting science and art works on display in subway stations for an estimated flow of 20,250,000 passengers.

Organized the first centralized exhibition of original themed paintings of Science and Art Activities from past years, with artists gathering and discussing the new development of popular science and aesthetic education.

The CURE Management and Service Platform achieved automatic data integration and sharing.

The “Analysis Report of the 25th Anniversary of CURE” drew from scholarly analysis to summarize the results accomplished to date, and recommend a path for future growth.
